## PREFATORY NOTE

THIS sixty-fifth yearly issue of the English Catalogue of Books comprises the titles of works published during 1901, also of some received too late for inclusion in Vol. VI (1898-1900).

As has been the case since 1891, titles and index are in one alphabet. The main entry of each work begins with the author's surname (if given on the title page) in **heavy type**. As an index to these 'Author' records, the title, commencing with its most important word or with its first word, is repeated in the same alphabet, with that word in *italics*, which in the main entry is in **thick type**.

The 'Transactions' of Learned Societies are recorded in an Appendix, as also the 'Series' and 'Libraries' issued by some publishers.

The names and addresses of the publishers of Great Britain and Ireland will be found at the end of the volume, followed by those of the principal publishers in the United States.

Hearty thanks are due to many publishers, secretaries, authors, and bibliographers who have assisted in making this book more correct and comprehensive than it otherwise would be.

The Editor will be glad to have particulars of author, price, publisher, and month of publication of any work which may have been omitted; they should be addressed to

*The Editor of The English Catalogue,*

*St. Dunstan's House,*

*Fetter Lane,*

*E.C.*

*January 30, 1902.*

The names and addresses of PUBLISHERS are given at the end of this volume.

## DIRECTORY OF PUBLISHERS

This list of publishers, with their addresses, has been principally compiled with a view to supplying information regarding the books in the English Catalogue Vol. VI. This will explain the inclusion of many firms in the list who can scarcely, in the strict acceptation of the term, be called publishers, since the publication of books forms only an occasional portion of their business.
